

Welcome to a Care Home as Individual as You Are

Personalised Residential, Nursing and Dementia Care

Gracewell

HEALTHCARE

A Care Home Like No Other...

A Gracewell care home provides the care you need in a place that feels like home.

At Gracewell Healthcare, we create homes that people love to live in. Places that are full of life and activity. Places that you'll love to call home.

And the care? We're experts in our field and take enormous pride in the quality of the care we provide.

Whether you come to us for residential, dementia or nursing care - or for a respite stay - you'll find a team of experienced carers, support staff and registered nurses. All ready to welcome you home.

“

It has been such a pleasure to visit my sister since she has been with you. The home is so relaxed, it is the first time in five years that we have been comfortable and felt she was safe when we go home at night. God bless you all.

Care That's All About You

At Gracewell Healthcare we start by understanding that:

- Everyone is unique and has their own special likes and needs.
- Everyone knows how they would like to be cared for and treated.
- Everyone's needs can change.

This is why we create a personalised care experience for each of our residents using The Gracewell Personalised Care Plan.

Your 5-Point Personalised Care Plan

Before you move in, we'll talk to you, your doctors and your family about five key areas:

1. Personalising your bedroom suite
2. Your individualised care, nursing and support needs
3. Your personal interests, social life, former working life and companionship
4. Your favourite meals and dining choices
5. Keeping your family and friends in touch with you, visits and activities

The result:

- Care that is as individual as you are
- Care that changes as your needs change
- Care delivered by expert, trained, experienced carers and support staff

Expert Carers

Each one of our homes features world-class facilities. It also includes something even more important: a carefully chosen team of highly trained people who are skilled, dedicated, professional and compassionate carers.

What Sort of Care Do You Need?

- **Residential Care.** High quality care in a modern home that promotes dignity, independence and wellbeing. Also known as Personal Care or Assisted Living.
- **Dementia Care.** We are experienced and expert in providing dementia care and memory support. Our dementia carers are specially trained.
- **Nursing Care.** Skilled and fully qualified nurses are on hand to provide professional nursing support.
- **Respite Care.** When you need a crucial break or a few weeks post-hospital convalescence, talk to us about respite care. It's also a great way to try out living in a care home.

“

The best care experience is when everyone works as a team and becomes part of the Gracewell family. We all have an important part to play in the creation of exceptional care experiences.

A Great Place To Call Home

*We design every Gracewell home the same way:
modern, innovative, stylish and welcoming.*

Above all, though, we always remember that this is the place that you call home. So, comfort and relaxation are key features too.

Make yourself at home at Gracewell.

Typical features include:

- Spacious en-suite bedrooms
- In-house hair salon and beauty spa
- Cosy dining areas
- Library and computer area
- Cinema room
- Bistro
- Wi-fi
- Wheelchair-friendly gardens

Delicious Food. All Day, Every Day.

Anyone who enjoys the finer things in life will feel right at home here at Gracewell.

Our chefs provide a seasonal, nutritious and varied menu every day. They also make sure that everyone's personal dining preferences and dietary requirements are met. We all enjoy celebrating special occasions and organising favourite treats too.

An Active Social Life

There's always something happening at Gracewell. Our activities and entertainments programme features a constantly changing range of events that are the perfect way to socialise and have fun.

“

*We cannot thank you enough for all the
kindness shown to mum during the
time she has been with you.*
